REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art does not disclose nor render obvious all the cumulative limitations of claim 1 with particular attention to causing at least one cell type to move through a ion-permeable membrane from one chamber to the other chamber where substantially all transmembrane migration of the desired cell type occurs upon application of the electric potential. The examiner previously relied on the teachings of Armstrong and CN 10488168 (Su) towards these limitations. However, Armstrong is not drawn to the electrophoresis of cells across membranes as required by the amended claims and the examiner is persuaded by applicant's arguments that Su does not teach having the cells pass through a membrane. Applicant's amendments towards claims 2, 3, and 31 overcame the previous 112 rejections.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to KAJ K. OLSEN whose telephone number is (571)272-1344. The examiner can normally be reached on M-F 6:00-2:30.
